Overview

This station has developed the following Accessibility Plan in accordance with the Telecom and Broadcasting Regulatory Policy ([CRTC 2021-215](#)) The Canadian Radio-television and Telecommunications Commission Accessibility Reporting Regulations. These regulations were developed by the CRTC to comply with the Accessible Canada Act ([S.C. 2019, c. 10](#)).

Here at CHMA we want to work with our community to ensure that we are not only accessible, but actively welcoming and effectively empowering our entire community.

As a community radio station, we believe that our obligation to promote and empower accessibility is fundamental to our ethos. The Community sector exists specifically to reflect and amplify our local communities:

CRTC Campus and Community Radio Policy ([Broadcast Regulatory Policy CRTC 2010-499](#))

The Commission considers that campus and community radio distinguishes itself by virtue of its place in the communities served, reflection of the communities' needs and values, and the requirement for volunteers in programming and other aspects of station operations.

The following Accessibility Plan reflects the expectations of the regulations and legislation in addition to our internal guiding documents.

As federally regulated broadcasters our station operates in a space governed by several Acts of Parliament to ensure fair and equitable access. This Accessibility

Plan complements our compliance with other pieces of legislation such as the [Employment Equity Act](#) and the [Canadian Human Rights Act](#). We are uniquely positioned as a federally regulated industry which offers public access, and volunteering in key and critical areas, doing so in a way which empowers our community is key to our mission and purpose.

If you have any questions about how we work to promote accessibility, and diversity please contact us station@chmaf.com.

Definitions

[The Accessible Canada Act](#) defines the following:

barrier means anything – including anything physical, architectural, technological or attitudinal, anything that is based on information or communications or anything that is the result of a policy or a practice – that hinders the full and equal participation in society of persons with an impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment or a functional limitation. (obstacle)

disability means any impairment, including a physical, mental, intellectual, cognitive, learning, communication or sensory impairment – or a functional limitation – whether permanent, temporary or episodic in nature, or evident or not, that, in interaction with a barrier, hinders a person's full and equal participation in society. (handicap)

The CRTC Accessibility Reporting Regulations define the following:

employee means a person employed by a regulated entity referred to in paragraph 7(1)(e) or (f) of the Act and includes a dependent contractor, as defined in subsection 3(1) of the Canada Labour Code, but does not include

- (a) a person employed under a program designated by the employer as a student employment program; and*
- (b) a student employed solely during their vacation periods. (employé)*

IMPORTANT NOTE REGARDING VOLUNTEERS

The regulations are designed for federally regulated industries with employees. It's worth looking at how the [Canadian Labour Code](#) defines Employee and Employer

employee means any person employed by an employer and includes a dependent contractor and a private constable, but does not include a person who performs management functions or is employed in a confidential capacity in matters relating to industrial relations; (employé)

employer means

- *(a) any person who employs one or more employees, and*
- *(b) in respect of a dependent contractor, such person as, in the opinion of the Board, has a relationship with the dependent contractor to such extent that the arrangement that governs the performance of services by the dependent contractor for that person can be the subject of collective bargaining; (employeur)*

In addition, under the Canadian Labour Code, under Part II Occupational Health and Safety there's a little more guidance under section 125(1)(y).

Specific duties of employer

- *125 (1) Without restricting the generality of section 124, every employer shall, in respect of every work place controlled by the employer and, in respect of every work activity carried out by an employee in a work place that is not controlled by the employer, to the extent that the employer controls the activity,
....(y) ensure that the activities of every person granted access to the work place do not endanger the health and safety of employees;*

Clarification on 125(1)(y) is given in the [Manager's Handbook Canada Labour Code - Part II](#) created by the Treasury Board Secretariat.

The use of the defined terms “work place” and “every person granted access” is very broad. The duty outlined in paragraph 125(1)(y) of the Code includes, as a minimum, an understanding of the expected activities of contractors, employees from other work places, students, volunteers, [emphasis added] visitors, clients, etc.

The Principles

This Accessibility Plan was developed in keeping with the core Principles of the Accessible Canada Act.

Principles

6 This Act is to be carried out in recognition of, and in accordance with, the following principles:

- (a) all persons must be treated with dignity regardless of their disabilities;*
- (b) all persons must have the same opportunity to make for themselves the lives that they are able and wish to have regardless of their disabilities;*
- (c) all persons must have barrier-free access to full and equal participation in society, regardless of their disabilities;*
- (d) all persons must have meaningful options and be free to make their own choices, with support if they desire, regardless of their disabilities;*
- (e) laws, policies, programs, services and structures must take into account the disabilities of persons, the different ways that persons interact with their environments and the multiple and intersecting forms of marginalization and discrimination faced by persons;*
- (f) persons with disabilities must be involved in the development and design of laws, policies, programs, services and structures; and*
- (g) the development and revision of accessibility standards and the making of regulations must be done with the objective of achieving the highest level of accessibility for persons with disabilities.*

In keeping with the Principles, specifically (f) and (g) we invite persons with disabilities to actively participate in the development of CHMA's Accessibility Plan.

The template of this plan was developed by the National Campus and Community Radio Association's Abilities Committee, in collaboration with volunteers living with disabilities. This final version was developed by staff and volunteers at CHMA including participants living with disabilities. Finally, we

invite our volunteers, staff, and community members, especially those living with a disability to participate in our feedback process.

The Consultations & Outreach

The following section details how this station will engage with our community, specifically those in our community who are living with a disability.

Promoting the Feedback and Consultation Process

In order for our plan to be most effective, and reflective of the community we will be promoting how to reach us in the following ways:

- A notice for consultation will be sent to all of our members & volunteers via our internal email lists.
- Calls for feedback will be prominently displayed in the station.
- Over a period of one month, we will be broadcasting PSAs promoting opportunities for our community members to engage with our consultation process
- We will be sharing information on our consultation process with our partner organizations to reach a wider audience.
- Consult with Accessibility Offices, student advocacy groups on campus, and the administration as a whole.

An Advisory Committee

This station will invite our members, and members of the broader community to support our station's accessibility by participating in our Advisory Committee. All members of our community are welcome to provide feedback through the process outlined below. For those providing feedback, they will be invited to indicate their interest in joining an advisory committee.

The advisory committee selection will be approved by the Board based on recommendations from our staff. The terms of the Committee will be developed and approved at their first meeting.

This committee will convene at least four times a year commencing YY/MM/YY.

Barriers to Access Survey

This station will be releasing a preliminary survey with our members/volunteers. The survey will be developed by staff and will reflect best practices. The questions will be sourced from the sector standard provided by the National Campus and Community Radio Association, and their disAbilities Handbook and training.

Following our survey release to our members/volunteers we will update the survey to reflect feedback from our station before sharing it with the larger community.

- The survey will be available over 6 weeks
- The survey can be taken over the phone (by appointment)
- The survey can be taken in-person at the station (by appointment)
- The survey can be taken over digital platforms such as Zoom

The results of the survey will be factored into our Accessibility Plan.

This station will release the survey data.

Protecting Privacy

Our Access Survey will have the option for anonymous contribution. For those who disclose their name and contact information, we can provide them with our plan when it is finalised. The information gathered would be anonymized for our plan.

Participants can request a copy of their responses from our staff.

The identities of participants in the Advisory Committee will be made public and posted to our website.

Addressing Barriers in Policy

CHMA's office and studio's are located on the campus of Mount Allison University at 62 York Street, Sackville, New Brunswick. As such, we will be consulting with the administration at Mount Allison University to ensure that our policies regarding accessibility are consistent with the rest of campus.

This station's Accessibility Advisory Committee will conduct a review of all of our policies to identify potential barriers. Our policies can be found here at www.chmafm.com/welcome/about.

We will use guidance from the National Community Radio Accessibility Advisory Committee on common barriers in policies, in concert with our own accessibility advisory committee.

CHMA's accessibility committee will review all station policy (ie: bylaws, volunteer policy etc.) to identify unrealized barriers emergent in documentation.

Here is a sample of what we will review:

- Our Mission / Mandate
- Our By-laws
- The Volunteer Agreement
- Spoken Word Policy
- Advertising and Sponsorship Policy
- Conflict of Interest Policy
- Programming Policy
- Equity or Diversity, Equity and Inclusion Policy
- HR Policy
- Anti Harassment and Workplace Violence Policy

The review of our policies will be completed by: dd/mm/yyyy. Recommended revisions will be presented to CHMA's board of directors by dd/mm/yyyy. The suggested revisions, and any changes made will be included in our updated accessibility plan.

Addressing Barriers in Programs

We will be looking to address the programs that we offer to ensure that we have removed barriers to participation.

Our initial focus will be ensuring that our training program for volunteers is accessible to all.

The Volunteer Training Program

We will be fully reviewing the process of being trained. We will task our staff with reporting on both the content, and context of the program.

The CONTENT of the training will be reviewed for any technological, informational or attitudinal barriers which may hinder the full and equal participation of the program. Staff will be asked to provide this information by dd/mm/yyyy.

The CONTEXT of the training will be reviewed to ensure that there are no structural, architectural or communication barriers.

This review will be conducted by either a designated staff member, or member of the advisory committee. The contextual review will be completed by dd/mm/yyyy.

Community Access to CHMA Programming

We will be reviewing physical, technological, informational and attitudinal barriers to public access to our airwaves, web platforms, our physical space on station premises, and in the community during public events we attend and/or host. Staff will be asked to provide this information by dd/mm/yyyy.

Fundraising Activities

We will be reviewing the various efforts related to fundraising by our station. We will be asking staff to consider all potential barriers for the staff, volunteers and public in engaging with our fundraising. That feedback will be submitted to our advisory committee by dd/mm/yyyy.

Addressing Barriers in Our Practices

The staff and Board at this station have identified the following practices which we will review:

- Our practices around hosting our Annual General Meeting
- Board meetings and committee meetings
- Our volunteer engagement practices
- Working virtually (i.e. pre-recording a show)
- Support for remotely recorded programming (staff or station support)

A timeline for reviewing each of these practices will be provided to our advisory committee by dd/mm/yyyy.

We will be inviting additional feedback on practices in our survey to the community.

We will be releasing an open feedback survey with our staff, board and volunteers to identify any additional practices not listed above. That survey will be completed and results provided to our advisory committee by dd/mm/yyyy.

Addressing Barriers in Services Offered

It is important to our station that the services we provide are accessible to all within our community. To achieve this goal we will be reviewing the following services that we offer as part of our accessibility plan.

- Selling Advertising and Sponsorships
- Event or Conference Sponsorship
- Audio editing or audio technical support.
- Studio recording space
- Podcast services
- On site recording services
- Website and social media promotion

These service reviews will be presented to our advisory committees by dd/mm/yyyy.

Publishing of The Accessibility Plan

CHMA will publish the Accessibility Plan in a variety of formats including digital, hardcopy, and audio.

We will be publishing our accessibility plan on our website at www.chmaf.com in accordance with the regulation requiring us to electronically publish. The plan can be identified on our website by visiting our 'About' section located at www.chmaf.com/welcome/about

The placement and readability of the plan on our website will be in a format that meets the requirements of Level AA conformance that are set out in the Web Content Accessibility Guidelines.

As a licensed broadcaster this station also intends on airing a PSA promoting a link to the plan and how to engage on a general rotation across our programming for no fewer than 30 days.

We will also notify local media and our media partners of our plan, and how people can get involved.

Updated Accessibility Plan

When we issue an update to the plan by no later than June 1st 2024.

Notifying the CRTC

This station will issue the CRTC with a copy of the publication of every version of our accessibility plan within 48 hours of publication, and include a link to our webpage for the plan.

Availability of Alternative Formats

CHMA will endeavour to provide alternative formats upon request for all policies, bylaws and Annual General Meeting materials including but not limited to: Braille, closed captioning, described video (ie: for slide presentations), e-text, and large print.

CHMA will also endeavour to provide adaptive technologies to assist volunteers in the production of their programming including, but not limited to: text-to-speech, voice to text, screen readers, screen magnifiers, and refreshable braille displays.

This station will make our accessibility plan available in the following alternative formats upon request:

- print,
- large print,
- braille,
- audio format,
- electronic format that is compatible with adaptive technology

For formats not listed above, we will enter into an agreement with the individual requesting the format and make all reasonable efforts to accommodate them.

Notifying of Alternative Formats

This station will prominently list on the webpage for our accessibility plan the alternative formats that are available. The availability of alternative formats will also be included in our other promotion for the plan.

How to Access Alternative Formats?

This station requires that requests be made in one of the following ways:

- By calling our main phone number at 506.364.2221.
- Or by emailing our designated email address for accessibility queries at station@chmaf.com.

The Response Time

This station will make a reasonable effort to provide the alternative format as soon as feasible. For Braille, or an audio format the request will be fulfilled within 45 days of the day of the request.

For all other formats they will be provided within 15 days of the date of the request, unless otherwise agreed to by the station and the requester.

The Feedback Process

This station invites feedback from our community on how to improve our plan and best serve the community. We will be allowing for anonymous feedback. Our feedback process will be published by June 1st, 2022. The CRTC will be notified of any changes to our feedback process within 48 hours of us publishing any change, and the notification will include a link to the latest version.

To ensure that the feedback is appropriately received and incorporated into our review of the plan we have designated an Accessibility Officer. You can also contact them directly at board@chmafam.com.

We will be welcoming feedback in the following formats:

- By calling our main phone number 506.364.2221.
- Or by emailing our designated email address for accessibility queries here: station@chmafam.com. If submitting by email please indicate if you would like the feedback to be made anonymous.

Confidentiality

In accordance with the *Personal Information Protection and Electronic Documents Act* and the *Privacy Act*, this station will be keeping all of the information provided via feedback as confidential unless consent is provided for release. We will be asking those who contact us if they consent to us releasing the feedback, and will only release the feedback which we have consent to release.

Promoting our Feedback Process

In accordance with the regulation requiring us to electronically publish, we will be publishing our feedback process alongside our accessibility plan on our website at www.chmafam.com. The plan can be identified on our website by the following the menu on our website under "Accessibility" located at www.chmafam.com/welcome/accessibility. This link will also clearly indicate that we are soliciting feedback in clear, simple and concise language.

The placement and readability of the feedback process for our plan on our website will be in a format that meets the requirements of Level AA conformance that are set out in the Web Content Accessibility Guidelines.

Any updates to our feedback process will be published in a manner identical to above.

This station is also happy to provide an accessible form of our feedback process in the following ways:

- By calling our main phone number (506) 364-2221

- Or by emailing our designated email address for accessibility queries here: station@chmafm.com

The Response Time

This station will make a reasonable effort to provide the alternative format as soon as feasible. For Braille, or an audio format the request will be fulfilled within 45 days of the day of the request.

For all other formats they will be provided within 15 days of the date of the request, unless otherwise agreed to by the station and the requester.
